

## TSR Milwaukee Training Schedule

### INSTRUCTOR LED – TSR MILWAUKEE TRAINING SCHEDULE

Product Training and Publications has identified Instructor Led Training, or ILT, as the primary delivery method for skills-based training. ILT is provided in two ways:

- **Milwaukee Based Training**
- **Field Based Training (*Limited hands on*)**

Milwaukee based training provides students the opportunity to work hands on with some of the equipment system components. Students are introduced to skills-based subjects in a classroom environment then taken into our Training Lab where they practice skills to successfully troubleshoot and maintain specific products.

The Training Lab is loaded with the latest in equipment product technology.

Field based training is held at Reginal facilities and provides *limited hands on opportunities*.

Regards,  
Product Training and Publications

### 2018 Technical Training Schedule

#### Milwaukee Training:

<b>Centurion DC Shovel Control System</b>	April 9 - 11, 2018 October 15 - 17, 2018
