Joy Global shovels and loaders earn top honors in Chile

Joy Global, a worldwide leader in high-productivity mining solutions, was recognized for “Best Performance – Shovels and Loaders” in Chile's Ranking of Suppliers of the Mining Industry.

The Ranking of Suppliers of the Mining Industry is a quantitative study that ranks the competitive position of each company evaluated. Study participants included 180 senior executives, superintendents and department heads of the major mining companies operating in Chile.

The study, now in its fourth year, was conducted by Phibrand, a research firm specializing in the mining market, in collaboration with Chile's Ministry of Mining, Industrial Suppliers Association of Mining (Aprimin), Chile's National Mining Society (SONAMI), Association of Engineering Consultants (AIC), and Editorial Group EDITEC.

A corresponding awards event was held July 23 to award 16 companies in 15 categories. At the event, Joy Global received top recognition for its shovel and loader products' performance.

“We feel very honoured to see that our customers have distinguished us as the best performance supplier in the shovels and loaders segment during the year,” Joy Global Chile’s General Manager Manuel Achondo said. “That is the focus of our effort, to deliver our customers the best in terms of services and solutions. To see that customers recognize that is wonderful and further motivates us to keep achieving excellence.”

Joy Global is a leading provider of advanced equipment, systems and direct services for the global mining industry. Its [shovels](#) and [loaders](#) are some of the most technologically advanced in the world. The company's products and services are focused on achieving the highest production levels, the lowest cost per ton and zero harm.
